HOW TO  
FIND US

# OUR PURPOSE

CRAFTING THE BEST POSSIBLE  
PRODUCTS TO THE CUSTOMER'S  
DESIRES, ALL MADE FROM THE  
HIGHEST QUALITY AND  
CRAFTSMANSHIP IN ITALY.

WE BELIEVE IT'S VERY IMPORTANT  
TO TRULY LISTEN TO OUR  
CUSTOMERS AND CREATE THE BEST  
POSSIBLE PRODUCTS.

# WHAT WE DO

We develop our products by heart, passion, and commitment. Only The Dreamers has 50 years of experience in the craftsmanship of resins, acrylics, galalite, horn and other natural materials, with which we make your projects. Our products are not printed but made with manual processes, numerical control machines, lasers and milling machines; this allows us to “make and remake” the prototype until the desired result is achieved without the constraint of the quantity

We listen to our customers and are only satisfied when the customer’s wishes are fulfilled. This is a process we take very seriously and won’t stop until this goal is achieved.

We are never done learning new things and will always stand ready to deliver the best possible service to our customers. Even if something doesn’t go the way we intended we won’t back down until customer satisfaction is achieved. This is why we listen and consider criticism and will always search for the best possible materials.

*Only the Dreamers*

# OUR HISTORY

Only The Dreamers was born from the evolution of a historic manufacture of the button and fashion accessories. Today we are a laboratory where tradition and craftsmanship of “made in Italy” are combined with new techniques and a current way of working on projects.

It all unravels with a button company in Budrio established by Armando Piazzini in 1972. A company that makes handmade high-quality buttons in Italy. The second generation, Massimo Piazzini, joined the company in 1983.

Later in 2011, Massimo Piazzini established a new company known as “Only The Dreamers”. After 5 years Massimo is joined by Lorenzo Tonelli since then they have been leading the company together.

*Only the Dreamers*

# DESIGN

Craftmanship and tradition are two of the pillars of the company. Over the past years, we have gained a lot of experience. The world is constantly changing and we are continuously learning and applying new techniques and operating as a realistic and flexible company.

At the very beginning, we started with man and mind which later started changing to technologies that support our craftsmanship and vision. A finely crafted product from Italy.

With the necessary accuracy for development, the prototype supports obtaining the quality of the production process to evolve and develop. Achieving desirable results takes patience, technical ability, humility, and a lot of teamwork.
